

Rainbow Facts for Kids

Sun • Rain Magic

Rainbows happen when sunlight shines through tiny water droplets in the air, bending the light into beautiful colors.

Seven Color Surprise

Every rainbow has seven colors: red, orange, yellow, green, blue, indigo, and violet.

Double the Fun

Sometimes a second rainbow appears above the first. This is called a double rainbow!

Light Bending Trick

Rainbows are made by something called refraction, which means light bends when it goes through water.

ROYGBIV Trick

The colors always appear in the same order. You can remember them with the name ROYGBIV!

Circle in the Sky

Rainbows are actually full circles, but we usually only see half because the ground blocks the rest.

Morning Magic

Rainbows can appear in mist or morning dew, not just after rainstorms.

Your Own Rainbow

Each person sees their own rainbow, so yours is a little different from everyone else's.

Always Out of Reach

You can never get to the end of a rainbow. It moves as you move!

Not Just Rain

You can spot rainbows in sprinklers, waterfalls, or even garden hoses on a sunny day.

Upside-Down Colors

In a double rainbow, the colors of the second rainbow are reversed.

Legend of Gold

Many stories say there's a pot of gold at the end of a rainbow. What would you wish for if you found it?

Thank you for downloading and printing these resources for your child or home! Follow <https://www.thingstoshareandremember.com/> for more ideas, resources, and freebies!

Printables Terms and Conditions

These are the terms and conditions for purchasing and downloading printables at thingstoshareandremember.com

Downloads can be used for:

- Personal Use
- Classroom use, including homeschool
- Public library use

You may:

- Print as many copies as you would like to use in your home, classroom, or public library.
- Post online about a printable (example: a photo of your child using it), giving proper credit to Share & Remember and linking back to the original source for downloading.
- Share the original file link for others to purchase

You may not:

- claim these files as your own
- alter these files in any way
- sell or in anyway profit from these files
- print these files and then sell the printed copies to others
- store or distribute these files on any other website or location where others are able to retrieve them (example: Dropbox, Google Drive, Facebook groups, etc.)
- Email my files to anyone or transmit them in any other manner

If you would like to use printables from Share & Remember in any other way, please [contact me](#) for permission.
